

Energy Efficiency

Energy Efficiency

Changes to Part L of the Building Regulations, which came into effect in April 2005, mean that gas boilers fitted in both new and existing dwellings should normally be SEDBUK A or B rated high efficiency condensing boilers. They should be installed by a 'competent person' registered with a regulatory body or signed off by the building control department of the local authority.

Therefore all installers wishing to certify their own work rather than paying Building Control must, under CORGI legislation, hold a certificate in Energy Efficiency for domestic heating. This certificate is awarded to those who successfully complete our Energy Efficiency course. The course contents include:

- Benefits of efficient heating and hot water
- Energy efficiency and building regulations
- The importance of boiler efficiency
- The importance of an efficient hot water cylinder
- Domestic heating and hot water controls
- Commissioning

This is just a one day course which consists of a PowerPoint presentation followed by a short written exam. After booking a place on the course, participants are sent a revision pack to study in advance.

Benefits

Gas engineers completing this course successfully will have an understanding of: -

- The mandatory Certificate of Competence in Energy Efficiency for Domestic Heating Part L
- Building Regulation Part L and associated legislation
- **Central Heating Specification** contained in Part L
- Boiler sizing and whole house boiler sizing method for houses and flats
- Importance of **SEDBUK** when choosing a new boiler
- Principles of a condensing boiler
- Minimum standards for the installation or replacement of hot water cylinders

Does It Apply To Me?

This course is mandatory for engineers who are involved in the design, specification, installation, servicing and maintenance of gas boilers, heating controls and hot water systems.

What Now

To book a place on the above course, or for information on other Get Training services, call the number below today.

We offer buy now, pay later and interest free credit finance options on all our courses. Please contact us for more details.
